Add Echo 360 Link To Canvas Course
Spring 2015

Each semester, an instructor can opt to use Echo 360 to record their class lectures. Additional information on how to use Echo 360 can be found at: http://help.echo.colostate.edu/

Each time a lecture is recorded, the instructor receives an email from Echo 360 with web links to their recordings.

An instructor can place this link in their Canvas course in a module or on a page, which will allow their students to access the Echo 360 recordings.

Here is an example of the Echo 360 email instructors receive:

EchoCenter Course Portal

https://echo.colostate.edu/ess/portal/section/7c9d46f0-c8ee-4c

Add Echo360 Link To A Canvas Module ................................................................. 2
Add Echo 360 Link To A Canvas Page .................................................................. 3
Add Echo360 Link To A Canvas Module

1) On the left navigation menu click Modules

2) Choose the module where you will add the Echo 360 link; click on the “+” symbol to the right of the module.

3) Under the Add drop down menu select External URL.

4) In the URL box, copy paste the link that was included in the Echo 360 email you received.

Sample Echo 360 web link received in email:

https://echo.colostate.edu/ess/portal/section/7c9d46f0-c8ee-4c

5) Type a page name. E.g. Class Echo 360 recordings.

6) At the bottom of the page, click Add Item
The link to the Echo 360 page will appear under the Module.

7) To the right of the Echo 360 link you created, make sure the item is Published. This will students can see and click on the link.

Add Echo 360 Link To A Canvas Page

You can create a new Canvas page and add the Zip Strip link. Or you can add the Zip Strip link to an existing page. The example below shows adding the Zip Strip link to a new page.

1) On the left navigation menu click Pages.

2) At the top right click on “+ Page”

3) Type a name for the page. E.g. Echo 360 Recordings

4) In the body of the text editor, type a name for the link. E.g. View Echo 360 video recordings

5) With your mouse, select/highlight the text you typed.
6) On the text editor tool bar, click on the icon that looks like a chain link.

7) In the url box, copy paste the link that was included in the Echo 360 email you received.

Sample Echo 360 link received in email:

https://echo.colostate.edu/oss/portal/section/7c9d46f0-c80e-4c

8) Click Insert Link.

9) At the bottom of the page click Save.

10) At the top right of the page, click Publish.
