

## Add Echo 360 To A Canvas Course

With the switch to the cloud version of Echo 360 in summer 2017, instructors can link their Canvas course to their Echo 360 course videos. You can have a link to all of your course videos, or link to a specific video in a course Module or on a course Page.

### ***Prerequisite:***

You **must first request your Echo 360 course** for the semester in order to link it to your Canvas course.

Go to the [CSU Echo 360 Help page](#) and *select Request Echo Account / Courses*.

-Follow the steps on the screen to request your semester Echo 360 course.

## I. Add Echo 360 To Your Canvas Course

- a) *Login* to your **Canvas course**.
- b) On the bottom left **course menu** *click* **Settings**.
- c) At the top *click* on the **Navigation** tab.

- d) Towards the bottom *locate* the **Echo 360** item.  
  
To the right of the Echo item, under the **gear icon**, *select* **Enable**.

- e) At the bottom *click* **Save**.

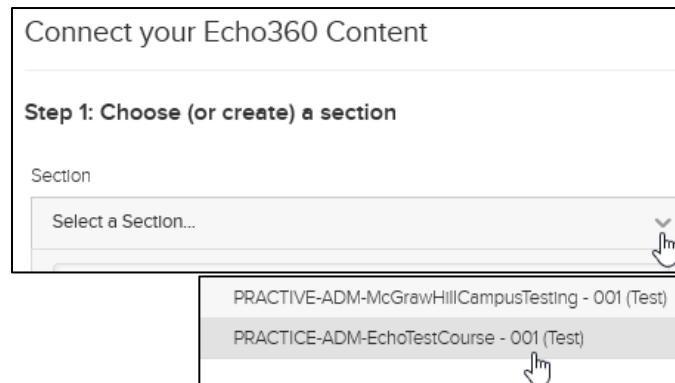

## II. Connect Your Canvas Course To Your Echo Course.

- a) In your Canvas course, on the left **course menu**, *click* **Echo360**.

- b) Under the **Select a Section** drop down menu, *click* on your **Echo course**.

- c) Choose what your **students will see** when they click on the course menu Echo 360 link.
- d) Click **Link Content**.

Step 2: Select where you want students to be redirected: Class List page or a specific Classroom

- **Link to the Section Home – (recommended)** will take the students to all of the Echo recordings in your Echo course.
- Link to Classroom –
- Link to Content – can link to one Echo video.

*Note:* You can also use Echo Public Links to link to a specific class session video in a Canvas course module or Page. See sections IV and V.

You will see the videos you have placed in your Echo course.

### What Students See

Students will click on the Echo 360 link on the course menu.

They will see links to your Echo 360 course videos

|                  |                            |  |
|------------------|----------------------------|--|
| Week One Lecture | May 15, 2014 2:06pm-2:12pm |  |
| Week 3           | May 29, 2014 3:07pm-3:25pm |  |

### III. Reset Echo 360 Course in Canvas

When you copy a previous Canvas course to a new course, the new course will have the link to the previous Echo 360 course. To link your new Canvas course to a new Echo 360 course do the following.

- a) In your **new Canvas** course, after you have added Echo 360 (section I ) to your **course menu**, *click* **Echo 360**.

- b) At the **top left** *click* **Reset Canvas Link**.

- c) Read the dire warning and *click* **OK**.

Are you sure you want to reset this link? Students will be redirected to the class list for this section until the link is reconfigured through the LMS.

CANCEL

OK

- d) On the left **course menu** *click* again on the **Echo 360**

- e) Under **Step 1** *click* **Link a different section**.

✓ Step 1: Choose (or create) a section

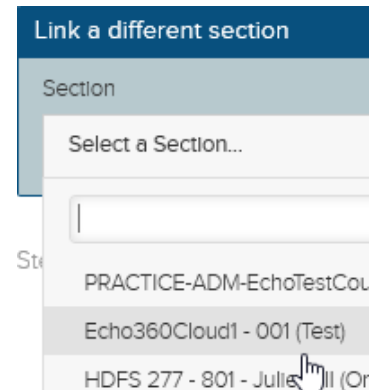

*This LMS course is currently linked to*

Currently linked sections (7):

Link a different section

- f) Under **the Select a Section drop down** *click* on your **new Echo course section**.

- g) At the bottom *click* **Link Content**.

Your Canvas course will now be linked to your new Echo course section.

## IV. Add Echo Video Link to Canvas Module or Page

You can add a link to an individual Echo video to a Canvas Module or Page.

### A. Generate a Public Link for Your Video

- a) On your Echo360 **classes page** for your course, find the video for which you would like to generate a link for a module or page and *click* on the **green arrow**.

b) Under the **drop down menu** *select* **Details**.

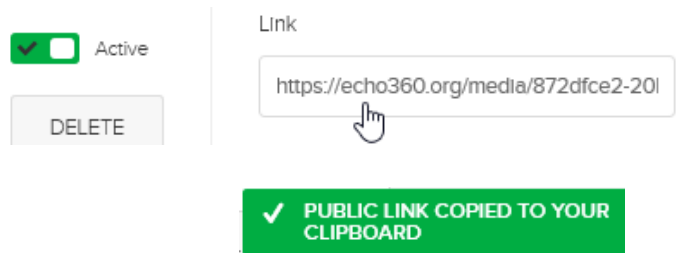

c) At the **bottom of the video** *click* **Sharing**.

d) Under **Public Links** *click* **Add Public Link**.

e) *Click* on the **link** to automatically **copy** it to the **clipboard** on your computer.

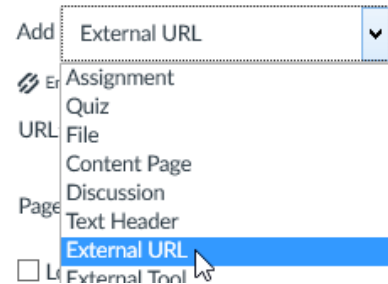

## B. Add Video Link to Module External URL

a) In a Canvas **module**, at the top right *click* +.

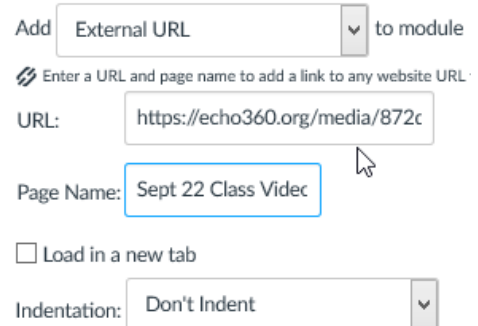

b) Under the **Add** drop down menu *select* **External URL**.

c) In the URL box *paste* the **link you copied** from Echo.

a. *Type* a **Page Name**.

b. You can choose to check “Load in a new (browser) tab”

d) At the bottom *click* **Add Item**.

e) Make sure to *Publish* this **link** in your Module.

f) *Click* on the **link** you added to be sure the **Echo video opens**.

### C. Add Echo Video Link to Canvas Page

a) You will need to copy the Public Link to your video that you created in step IV.

b) Click on and *Edit* a **Page** in your Canvas course.

c) Type **text** for your Echo video link.

d) With your mouse cursor *highlight* the **text you typed**.

e) On the **tool menu** at the top of the window *click* the **chain icon**.

f) *Paste* the **link** to your video in the box.

Link to Website URL

This will make the selected text a link, or insert a new link if selected.

Paste or type a url or wiki page in the box below:

<https://echo360.org/media/551e>

Insert Link

g) Click **Insert Link**.

The text on your page will now be a link to your Echo video.

h) Click **Save & Publish** or **Save**.

## V. Embed an Echo Video on a Canvas Page

### A. Generate a Public Embed Code for Your Video

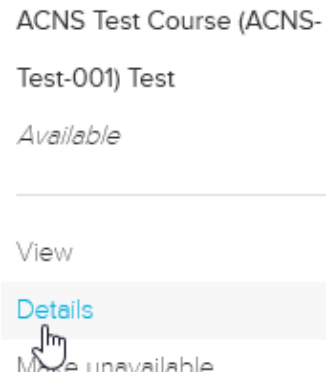

a) On the **left menu** in your Canvas course *click Echo 360.*

b) On your Echo360 **classes page** for your course, find the video for which you would like to generate a link for a module or page and *click* on the **green arrow**.

c) Under the **drop down menu** *select Details.*

d) At the **bottom of the video** *click Sharing.*

- e) Under **Public Links** click **Add Public**

- f) Under **Public Links** click **Embed**.

- g) At the bottom of the **Embed window** click **Copy**.

## B. Add Embedded Video to Page

- a) On the left **course menu** click **Pages**.

- b) Click on a **page**.

- c) At the top right click **Edit**.

d) At the top right *click* **HTML Editor**.

e) In the text box *paste* the **Embed code**.

```
<iframe height="360" width="640" allowfullscreen frameborder=0 src="https://echo360.org/media/872dfce2-20b8-44d3-83e8-d1d641368d78/public?autoplay=false&automute=false"></iframe>
```

f) At the bottom right of the page *click* **Save**.

You will see the embedded Echo video on your page.

Make sure the page is **Published** and accessible to students.
